SUMMARY

Data Scientist and AI/ML Engineer with a strong focus on scalable data solutions and intelligent system engineering. Proficient in Python, SQL, and various data engineering tools, I excel in creating robust data pipelines and extracting insights from complex datasets. My experience includes developing machine learning models, data visualization, and hands-on teaching in programming concepts. I am committed to driving innovation and transforming raw data into impactful solutions for decision-making.

SKILLS

Python, Machine Learning, Data Engineering, SQL, AI, Deep Learning, Data Visualization, Team Collaboration, Critical Thinking, Communication, Presentation Skills, Data Warehousing, Microsoft Azure, ETL, Web Development, Project Management

WORK EXPERIENCE

Digital Egypt Pioneers Initiative - DEPI Intern Data Engineer	May 2024 - Nov 2024 <i>Egypt</i>
Assisted in data engineering projects, focusing on ETL processes and data analysis.	
Freelance on Linked AI Engineer	Dec 2023 - Dec 2023 <i>Remote</i>
- Created a Skin Cancer classification model achieving over 94% accuracy across 8 classes. - Deployed the model using Django for integration into a web application.	
Microsoft Student Partner (MSP) AI Team Leader	Oct 2023 - Dec 2024 <i>Cairo, Egypt</i>
- Led a team of AI enthusiasts, promoting collaboration and mentoring for impactful learning sessions. - Facilitated workshops on data preprocessing, feature engineering, and model building using Python and TensorFlow.	
Instant Software Solutions AI Engineer Trainee	Sep 2023 - Nov 2023 <i>Egypt</i>
Engaged in training programs to develop AI engineering skills.	

PROJECTS

Word Sign Language Realtime Interpreter AI Engineer	Mar 2025 - Jun 2025
Developed a real-time AWSL translator with over 95% accuracy using TensorFlow and StreamLit.	
CheScan-AI Data Scientist	Dec 2024 - Jan 2025
- Created a pneumonia detection pipeline using TensorFlow CNN, achieving 95% accuracy. - Integrated the model into a full-stack React.js and Flask application.	
Brain Tumor Classifier Data Scientist	Dec 2024 - Dec 2024
- Developed an end-to-end brain tumor classification system using VGG19 transfer learning. - Optimized model training and deployed as a .h5 file for clinical applications.	
DEPI Microsoft Data Engineering Data Engineer	Sep 2024 - Oct 2024 <i>Egypt</i>
Completed an end-to-end data engineering project, transforming raw data into actionable insights using SQL and Power BI.	

EDUCATION

Higher Institution of Computer Science and Information Systems Bachelor of Computer Science	Oct 2021 - Sep 2025
---	----------------------------
